In para I of 601-4 / L.7.1-02 dated 4-8-03. the Chief Engineer was asked to submit the Executive Engineers explanation for incurring the unauthorized expenditure on the three works The present reference is in compliance with the requisition.

The Executive Engineer pleads, that the works of "Reconstructing a tunnel on 6/9 of Bangalore-Vaniadiurg Road" and "Restoring silt dam across the check dram of Jeffur-Gumlapur Road" were although started and completed in 1902-1903. incomplete works of 1901-1902; that the work of Reconstructing the breached bund of Nalla in 7/9 of Devanhally-Vadigenahalli Road" was taken up to avoid danger to the

to the travelling public and inconvenience to traffic; that the three works in question were completed with the approval of the D. F. Board and not without it as reported by the President; and it is not usual to discuss in the meeting of the Board and to obtain their approval for minor works for which a small amount is usually provided under "Reserve grant".

The Chief Engineer ~~[illegible]~~ considers that ~~[illegible]~~ the explanation of the Executive Engineer in regard to works Nos 2 and 3 may be accepted, and that it is a pity that the Executive Engineer undertook the 1st work without obtaining sanction to the allotment; and proposes that the outlay on the three works

referred to may be met from the savings on the budget for 1902-1903.

As called for in this office docket no 1287/L.F. 1-02 dy 23-9-03, the Examiner reports that the amounts expended by the Executive Engineer were included in the items of expenditure, under "A. Public Works" shown in the Comptrollers preliminary accounts for 1902-1903, according to which there is a closing balance of Rs 49.154

Submitted for orders as to whether, under the circumstances stated, formal sanction may be accorded to the unauthorized expenditure incurred during 1902-3, and the Executive Engineer enjoined not to incur in future any expenditure without proper sanction. ~~of the Board~~. Put up draft at once

Sir

I have the honor to state that in the current year's budget of the Local Fund Circle of this District, a provision for Rs 17 bg is made for works noted in the margin. These works are executed by the Public Works Department. The Executive Engineer for reasons given

(1) Clearing out a road from Yelahanka to Hidavanur
(2) Widening the portion of Chennahatty-Sathur road passing on the bund of Honganur Tank

given in the explanatory memo —
(submitted herewith in original) desires
to appropriate this amount for other
works urgently required to be carried
out, with an additional cost of Rs 727/
For this purpose he has sent the enclosed
reappropriation statement. The
matter was discussed at the District
Board meeting held on 11th May
1903, with the result that the Board
resolved that they were unable to —
sanction this. The Executive Engineer
insists upon a reference being made
to Government to sanction this expenditure
on the ground that the works have been
taken up and are nearing Completion. Only
last

last month was held a meeting of the District Fund Board members and it is not likely that another will be held before the year closes, so that there is not the slightest chance for a reconsideration by the District Fund Board of the resolution referred to.

I would therefore beg that Government may be moved to sanction the reappropriation asked for, as a special case. This extra cost maybe met from the Savings under "A Public Works" Rs 50,348/4 in the current year's Budget of the Local Fund Circle.

The reappropriation Statement received with the Executive Engineer's docket

Sir,

I have the honor to forward, herewith, the formal revised District Fund Budget estimates for 1902-03, instead of the reappropriation statements already sent with this office letters Nos 1398, 1415 — dated the 9th and 13th June 1903, respectively. As the Government have recently sanctioned the grant for Local Fund General works in their Proceedings No

with Memo. No 17781-90 dated 18th June 1903.

it is not necessary that the cost for Local Fund General works should be met from the current year's District Fund budget. Hence the present requisition

2 With regard to the additional grant for Public Works Department, it is not necessary to meet the amount of Rs 72; from the closing balance of the District Funds, as provision has been made in the present revised budget as funds are available. As there would have been? been no grant out of District Funds if the amount for Local Fund works had been sanctioned from the District Fund grant it was proposed before the proceedings of

of 18th June 03 was received, to appropriate from the closing balance.

3. The items entered in the present budget have been discussed at a meeting held on the 11th May 1903, except the question for a new grant for Public Works Department which has been explained in this office letter No 1467 dated 29th June 1903.
I request sanction therefor.

Forwarded to the Secretary to Government, Revenue & Genl. Departments with reference to para I (Slip B) of Proceedings No. 601-4 / L.F.1-02 dated 4th August 1903. The undersigned quite concurs with the opinion expressed by the Supdg. Engineer Eastern Circle.

But as the total District Fund Budget grant sanctioned for the year 1902-03 for the Bangalore Division has not been exceeded by the Exe. Engineer the outlay on the three works referred to in the Proceedings quoted above may be passed to be met from Savings on that Budget.

His No. 4392 of 21st ultimo forwarding, Copy of Chief Engineer's No. 4483 of 17th idem, and Copy of Government Proceedings No. 601-4 / L.S. 1-02 of 4th idem Calling for explanation of the undersigned for having undertaken certain District Fund Works for which there was no grant for 1902-1903

With reference to the above, has the honor to report as follows.

Construction Fund on 6/29 of Bangalore Naudidoorg Road

This is not a fresh work undertaken during the year 1902-1903 without authority. The Estimate for it which was countersigned by the

the President, was sanctioned by the Superintending Engineer in his No. 4522 of 11th December 1901 with orders not to start the work until funds were granted. Provision was accordingly made for it in the Supplemental District Fund budget for the year 1901-1902 and the same was sanctioned in Government Proceedings — No. 19571-75. L-21-01 of 24th June 1902. Intimation of sanction having been received late, the work could not be started in 1901-1902, and the allotment made for it viz Rs 1650/- lapsed. Being an incomplete work, it was started in 1902-1903 and completed. The item was included in the list of incomplete minor works requiring appropriation for 1902-1903, sent to Superintending Engineer with this Office No. 4007-575 of 15. 8. 1902, but — instructions were received to apply for funds to the President, as there existed no provision under "Reserve grant Original works, for minor works, in the budget for 1902-1903. Accordingly, a re-appropriation statement providing for the work was prepared and sent to President.

Constructing silt dam across the check drain of Iglur Gumlapur Road

II. This was also an incomplete work of the previous year and not a fresh work undertaken during the year. The Estimate for it was countersigned by the President in his No. 194 of 7. 1. 1902 and a proposal was made to utilize for this work for 1901-1902 a portion of the grant of Rs 1000/- for opening out Yelekyatthinhully Nedavanda Road. This was approved of in President's No. 275 of 19. 3. 1902, and also in Superintending Engineer's No. 1816 of 24. 4. 1902. Only materials required for the work were collected in 1901-1902, and no work was done. In 1902-1903, the work was started and completed. This was also included in

in the list of incomplete works but as there was no provision under "Reserve grant" in the budget, the item was included in the Re-appropriation statement.

Reconstructing the breached bund of Nalla in 7/29 of Devanhully Vorgaulum Road.

III The bund of the Nalla having breached, the flood overflowed the road and damaged it. This was a bad obstruction for the traffic and danger was also apprehended to the culvert above. A temporary deviation was made for traffic, and the Estimate for reconstructing it prepared and sanctioned after obtaining the countersignature of the President of the board.

As there was no provision under "Reserve grant for minor works," the item was included in the Re-appropriation statement.

V The funds required for the above 3 works was Rs 2496, to meet which a sum of Rs 1769 was available from other works under the same head. The balance requiring sanction was Rs 727, and for this sum, and also for a sum of Rs 726 required for Survey Charges of the new road along the Electric Transmission line, a re-appropriation statement was sent to the President. When the statement was discussed by the board, the item of Rs 726, required for the new road was objected to, and so far the undersigned remembers the other items were not objected to by the board. The President intimated to me in his No. 553 S/19 dt. May 1903, that the

whole

whole of the Re-appropriation Statement was disallowed by the board, and the undersigned immediately pointed out in no. $\frac{2522}{972}$ of 22.5.1903, that the unpassed item was only the Survey charges of the new road and not the other items.

V. The undersigned respectfully submits that it is not usual to discuss in the board and to obtain their approval for minor works. To meet such charges it is usual to provide a small amount under "Reserve grant" and to obtain the boards consent thereto. Such provision had been made in the budget for 1902-1903, but was not sanctioned. Accordingly a re appropriation Statement had to be Submitted. The meetings of the board are held quarterly, and in the interval an urgent work may be necessitated, and it would involve a much larger expenditure and inconvenience to traffic, if such urgent minor works are delayed. Of course, any work costing a large sum is usually deferred until it is accepted by the board and sanction to it is granted.
